

99 Reasons to start structuring your tap water

Performing and observing what happens when you structure water has led to many insides and uncovered many wonderful discoveries. We offer everyone to have a look at these findings. These discoveries were established through many testing devices and how people, animals and plants responded to structured water:

- 1) People's observation
- 2) Body and tongue (the most sensitive of all instruments)
- 3) Traditional Chinese medicine (TCM) pulse testing
- 4) Korean hand therapy (KHT pulse testing)
- 5) Applied kinesiology (AK) / muscle testing,
- 6) Gas discharge visualisation (GDV) testing
- 7) AcuGraph testing
- 8) Pulse oximeters
- 9) Blood pressure kits
- 10) Thermometers

There are more test devices than this. Time will bring even more tests forth. Some were also experiential or empirical evidence as given to us through our distributors and customers. They or we have checked and confirmed most of these events up to 12 times or more. Twelve confirmations give us the initial beginning insights into possible statistical significance. Stay Structured!

DRINKABLE LIQUIDS

1. Water tastes better! Everyone who has bought one knows this!
2. Molecular change in water.
3. Water becomes beautifully soft
4. When the cell demands hydration, structured water is easier absorbed.
5. Orange, apple, and other juices have more flavour.
6. Hydrates veggies and fruits extremely well
7. Makes teas taste purer.
8. Hard water becomes soft water
9. Children have commented that the water taste no more metallic

NON-DRINKABLE LIQUIDS

These tests were established through pulse testing and applied Kinesiology (AK)

10. Eases chlorine swimming pool water effects - water becomes less irritating to the eyes and skin. Many people have attained this awareness and greater energy after swimming in structured water.
11. Chlorinated tap water tests – The test expresses changes in chlorine levels from 1 to 0. Manel in Cellers, Spain, first helped with this test.

HUMAN PHYSIOLOGY or FUNCTION TESTS

GDV Tests - These tests are performed with a Gas Discharge Visualization machine expression significantly improved changes through numerous test subjects.

12. Energy Field smooths or balances and enlarges in area.

13. Chakra Alignment comes to improved or perfect balance.

14. Energy Diagram - Organ energetics improved in the entire body.

15. Functionality Indicators improve (e.g., vegetative state, stressed).

16. Stress Reduces - The A-reading (The GDV Activation Coefficient Reading aka Stress Level Number) - Stress became less or was reduced. A person normally at an A reading of 5-8 (= stressed to very stressed) would decrease and return to a normal stress parameter of 2-4 or less, feeling more relaxed. This includes the regulation of the autonomic nervous system.

17. 83-Year Woman's Kidney Imbalance energetically shifted from excess to normal parameters in 4 oz of structured water.

18. Popular sports drink study showed us that a sports drink could impair a person's energy system. The GDV Chakra alignment significantly shifted out of balance when on 1 oz. of a popular sports drink was consumed. Other important GDV test parameters of the energy diagram, energy field, and functionality indicators returned to an improved balance from the person's initial baseline.

19. Different Bottled Water Sample GDV Studies

A. Bottled Water causing dis-regulation and pulse imbalances

- Aquafina
- Dasani
- Camp Verde AZ Tap water
- Bashas RO
- Pelegrino
- All the deregulating (causing pulse imbalances and brain dis-regulation) bottled waters
- that were structured with the NAT Water Conditioner instantly changed to statistically different good waters.

B. Regulating and Balancing Bottled Waters (creating or maintaining pulse balance and brain regulation; not disruptive of balance)

- Bashas Spring good
- Arrowhead Springs Spring good
- Volvic good
- Evian good
- The portable and whole-house vortex-structured water units were energetically better than the highest quality water on the store shelves.

APPLIED KINESIOLOGY & PULSE TESTING

(Applied Korean Hand Therapy and TCM Traditional Chinese Medicine Acupuncture Pulse Testing) Autonomic Response Testing (ART) from a system developed by Dr Diedrich and Klinghardt, M.D., brain neurologist and multi-disciplinary practitioner.

20. Autonomic Nervous System Test - usually blocked on the emotional level (not physical, mental or spiritual level initially) regulated when checked with structuring. First done with NAT, M. Wilson and many patients. Standard Chiropractic Muscle Tests from Victor Frank, George Goodheart, D.C.'s

21. Ileocecal Valve Tests - What the old-time chiropractors called "the Mother of All Diseases" changed from baseline weak to strong after consuming structured water; This is not the case with all waters like distilled, RO, Kangen pH 9.

22. Yeast Fungal Mould Tests - changed from baseline weak to strong after consuming structured water.

23. Coca-Cola Yeast Point Test - A person with pathogenic yeast will test weak at the yeast point. Drinking Coca-Cola makes a person who tested positive for the yeast test weaker (true of many store-bought beverages). When the Coca-Cola is structured, the yeast test point strengthens and is stronger than the baseline test.

24. Allergy Point Tests - changed from baseline weak to strong after drinking structured water.

25. San Jiao Tests Upper, Middle, Lower - a "jiao" or sector will go from testing weak to strong; thus, all organ and endocrine function is strengthened and/or balanced. This coincides with improved or balanced pulses.

26. Weak Organ or Endocrine Test - changed from baseline weak to strong after drinking structured water.

27. Olfactory Tests w muscle Testing (probably one of the most powerful true tests as it bypasses critical thinking)...Inhaling a toxic substance such as dish soap, Coca-Cola, or cleaning agent before structuring those products would show a marked weakness in AK tests; After structuring, there were notably stronger differences to the muscle tests.

28. Weak Tooth Test - changed from baseline weak to strong sometimes.

29. Structured Water releases Emotional Toxicities. Structured Water has been shown to assist the body in letting go of old memories. Many people feel more relaxed after one or two cups of structured water. The GDV confirmed these findings.

30. Leg Length Test (BEST and other Chiropractic measures) - Changed from baseline offset (one leg longer) to both legs balanced or same lengths after drinking structured water.

31. Hip Rotation - Where one hip started more bound or locked up before structured water, it would change to a more flexible rotation after drinking structured water.

- 32. Lateral Neck Rotation** - Locked up lateral neck rotation right or left would often ease with structured water.
- 33. Leg Length Balancing** - Structured water in a glass gallon jug held to the sternum helped balance a person's uneven leg length. A chlorinated water gallon jug did the opposite. Thus, what occurred was improved structural chiropractic function...many times, reduction of low back or other structural pains and improved range of motion and coordination.
- 34. Pain reductions** - Filling structured water into Ziploc bags and holding them on painful body areas will ease the pain in 10 minutes, MS VITAL SIGN TESTS.
- 35. High Blood Pressure** - Reductions in blood pressure have occurred instantaneously with drinking structured water.
- 36. Low Blood Pressure** - Shifts upward in low blood pressure readings have spontaneously risen, showing that structured water can provide body balance.
- 37. Temperature** - Low-temperature readings have risen back to normal or close to normal.
- 38. Respiration Rates have slowed markedly**, e.g., as much as 12 respirations per minute to 6 per minute.
- 39. Pulse Rates** - Pulse rates have dropped significantly for many stressed people. Conversely, they have risen for people with weak pulses.
- 40. Dark Field Blood Tests show the improvement of red blood cells** through the dissipation of unhealthy clumping, a known marker of poor oxygenation states and disease.
- 41. Brain Wave States** - We believe strongly that brain wave states shift into more functional parameters. The pulses show this. Pulses are generally linked to the brain wave function. We are currently researching these exciting tests. OBSERVATIONAL and EXPERIENTIAL Notes on Structured Water
- 42. Facial expression test or the Structured virgin test, people** who have never experienced structuring change their facial demeanour in some way upon being structured! They light up upon drinking structured water. Micro-expressions change in even the most stuck people. Sometimes it's something in the eyebrows or the eyes. The stern look becomes softer. The face lights up—the demeanour and general ambient shifts in some magical way.

STRUCTURED WATER AS A FIRST-AID SPRAY

- 43.** Burns lessen.
- 44. Eyes feel less irritated...**creates a blue light buffer for computer users.
- 45. Bumps and bruises become less swollen** when structured water is applied.
- 46. Feelings of more grounding** as when applied to 3rd Chakra; Doctor Russ Newman
- 47. Nails Improve** and become less brittle as the liver is hydrated and detoxified with structured water. Jacqueline Aldana
- 48. Skin Tone improvement/people** report skin tags disappear
Structured Water feeds the lungs and, thus, the skin.
- 49. Endurance and Energy Improves** as hydrated water feeds the body.
Structured water is more energised water; hence, the energy goes up.

50. Mental Clarity & Brain Function Improve as Water feeds the brain. The brain is 95% water...People think better.

51. Recovery Rate Improves - People doing gym workouts noticed their post-workout recovery rate picking up.

52. Breathing improves and becomes easier as kidneys and lungs are fed, especially in kidney-deficient rasping and asthma. All people are chronically dehydrated.

53. More Awareness - Drinking structured water makes one more aware.

54. Greater sense of grounding - People remark of a feeling of more centeredness.

55. Sleep states improve.

56. Detoxification of body through bath and showers - People have noticed how much cleaner their body feels after bathing in structured water.

ANIMAL HEALTH

57. Dogs' eye side after 16 years started to improve significantly after drinking structured water.

58. Bees flourish in the presence of structured water come to structured water plants...Help for Bee Colony Collapse?

59. All animals are attracted to structured water...birds, turkeys, squirrels, pets, etc.

PLANTS AND GARDENS

60. Fountains and garden misters lost calcium deposits, saving the owner lots of money in maintenance expenses.

61. The body starts to lose calcium deposits because structured water frees up sticky calcium.

62. More available calcium in the body equals greater immune function.

63. Brix levels raised in strawberries rapidly in a few days making for sweeter-tasting fruits...Arizona growers.

64. Leaves on vines healthier - Of two exact species of vines, the vine grown with structured water had 6-9" leaves, shinier, and greener than the non-structured water vine, whose leaves averaged 3-6" and were mostly dull and dehydrated.

65. Structured leaves lasted twice as long before cracking after being picked, that is, nine days for the structured vine as compared to 4.5 days for the non-structured vine leaves.

66. Tomato buds on structured water tomato plants were numerous and healthy.

67. Rose bushes turning into rose trees. We started with rose flowers at 4-6 feet in two years, going to 6-8 feet. They were now out of reach of outstretched arms and hands to even enjoy the fragrance...the leaders went from 8'tops before structured water to 11' the first year to 13'the second year. The fragrances of the rose were incredibly beautiful.

68. Cut Roses in Vases comparison study- Structured roses left in vases lasted 13 days compared to non-structured roses cracking, drying, and losing leaves by six days.

69. Tangerine trees juice taste test - Tangerine trees raised with structured water delivered superior juice, which raised the taste bar way over anything experienced here to-fore from a store. They brought the awareness of heart, joy, and delight to the awareness that AHA! This IS how food should be!!!

70. Superior lemons taste test - Lemon Trees watered only a few times with structured water brought a new awareness of how sweet lemons could taste. Diane Plant

71. Crushed grape leaves brix test - The Brix readings on crushed grape leaves after the vine were watered with structured water increased significantly.

72. Higher nutrient content - Grapes hit an amazing 24 on the Brix scale in Mexico. An excellent grape is 20. A poor grape is 8. The Brix scale is a measure of sugar content but also an overall indicator of plant health and nutrition.

73. Soil loses its calcium-glazed hardness. Water and minerals absorb more easily.

74. Faster harvest time - The grapes in Mexico had to be picked two weeks ahead of normal harvest dates because they were turning to raisins on the vine.

75. Fungus growth absent - No fungal growth was present on the crop. Fungal growths are usually apparent on most grape crops.

76. Apple Toxicity Spots - Apples soaked overnight in structured water brought toxicity spots.

TASTE IMPROVEMENTS

77. Fruits and vegetables soaked or submerged in structured water tasted better.

78. Greater longevity - Fruits and Vegetables soaked or submerged in structured water lasted longer and kept from wilting.

79. Olive jar taste test non-structured vs structured - Olives in a jar muscle test toxic and imbalances the pulse. When the liquid in the jar is structured, it no longer tested toxic nor imbalanced the pulse, AND it tasted significantly better.

80. Orange fungus test - When oranges with an already toxic fungus were placed in different types of waters (RO, distilled, tap), they continued to grow and be toxic. The fungus on the orange in Structured Water became non-toxic as tested through pulse and AK testing.

81. Peppermint tea fragrance enhancement test - Smell an old box of peppermint tea bags. Place in an airtight container and submerge in structured water for an hour. Remove and smell the teabags again—a more powerful and alive fragrance.

82. Sprouting tests - Structured water sprouts grew faster and harder than non-structured water sprouts.

83. Greater resistance to cold temps and frost.

84. Greater yield size and weight - 2 lb. Tomatoes and 19-inch strawberry plants are just some of the realisations of larger crop sizes.

MECHANICAL IMPROVEMENTS

84. Cleaner pipes in the home and businesses, wells, and cars – people have house sectors flushing out black water for a few weeks. Hair no longer deposits in pipes. The insides of pipes become clean.

85. Well pipes lose their toxicity and clean out the aquifer.

86. More soap suds/softer water - On many occasions, where there was hard water, within minutes, it changed to soft, bringing forth soap suds.

87. The “300-foot rule” was tested for all NAT units and found true.

Water remains structured in a line of flow for approximately 300 feet. After that, the structuring effect will taper off.

88. Swimming pools free of chlorine effect - Itchy red eyes and skin disturbances not present with Structured Pool Water. Greater endurance from being surrounded in energised water for swimmers and aqua-aerobic fans.

89. Chlorinated tap water lowered to 0 after structuring with Ex-Tech Tester.

POTENTIAL ECONOMIC BENEFITS

90. Save money on bottled water.

91. Save money on maintenance and replacement cost.

93. Save money on less water usage.

94. Greater focus, fewer mistakes, save \$\$\$.

95. More Energy to fulfil your passion for earning Money.

96 More Oxygen = better brain power to make \$Money\$.

97. Less toxins = less sickness = save \$\$\$.

98. More relaxed = less stressed = less trips to the doctors, saves \$\$\$.

99. Finally, people, animals and plants all do better on structured water.
